Good Lighting.
The Retail Merchant—One of the most valuable sales aids at the command of the modern merchant is electric light. Light plays a leading role in the drama of merchandising. Repeated tests prove that **GOOD LIGHTING** speeds up sales and saves the time of customers and clerks, because it enables customers to see exactly what they are buying. If the customer does not see the merchandise clearly when purchasing, it is likely to be returned with the statement: "It is not what I thought it was when I bought it."

LOCAL NEWS.

Mr Gellhouse and family have moved to the house on Third St. recently vacated by Mr Alton.

Sunday's train from Vancouver was eight hours late.

Mr Sam Zieppel, who left here nine years ago to reside in Vernon, B. C., was a Sunday visitor in Stony. Sam has been an inmate of an Edmonton hospital for the past six weeks, following a major operation.

A rink of curlers from the Edmonton police force played a picked team from the local club the afternoon of the 20th. The visitors made a clean-up in the whole four games. After the contest they were banquetted at Christie's Cafe. The visitors took with them the silver Inter Club Cup which had been competed for.

The local hockey team was billed for a Sunday game at Winterburn, but failed to go owing to lack of transportation facilities.

Mr Paul Werner had as visitors on Friday last Messrs Heinz Loehde and Harry Petzoldt, representing Hamburg-American line. Her Paul had a round of chess with Herr Loehde, and, after several interesting bouts, Paul won the rubber. Mr Werner will attend the convention in Edmonton next week of the immigration agents connected with the Canadian National Railway.

Last evening was a busy time for those attending the band's whist drive. As this was the end of this series, the prizes were awarded the successful players.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, 10159 101st St., Edmonton.

What We May Expect.

Raising of the gasoline tax from 3c to 5c per gal., with an exemption on such fuel for tractors, was favored in a resolution passed at U. F. A. convention on Friday. As this proposed tax jump is expected to come up at the present session of the Legislative Assembly, the attitude of U. F. A. on this matter was looked forward to with keen interest.

United Church Notes.

At Spruce Grove a very fine pulpit has been installed in the church.

At Brightbank, on Sunday last, a splendid teachers' Bible was presented to Miss Deans out of appreciation for her work in the Sunday school. The presentation was made by Mrs Dickie Sr. and Mrs Fryer Sr.

At Stony Plain the sermon was on the subject **Danger Signals** or the New Testament usages of the word "Be ware." The congregation was very good.

Western Canada in the Spotlight

The attention of people in all parts of Canada, and, in fact, of the world, will be directed to the prairie provinces of this Dominion during the next few months in a way and to an extent probably unprecedented in the history of any country, by reason of the applications to the Dominion Parliament for charters to build many hundreds of miles of railway in the northern portions of Manitoba, Saskatchewan and Alberta.

Both the Canadian Pacific and the Canadian National Railways are asking Parliament for power to enormously extend their lines into the north country, and both announce their eagerness to proceed with the work of construction with the least possible delay. There is the keenest kind of rivalry between these two giant systems for rights into certain sections of this territory, with the result that a battle royal will take place at Ottawa when Parliament assembles.

One thing emerges quite clearly from the situation that has developed, with almost startling suddenness, and that is, that, despite all former statements and predictions to the contrary, the railway managements of Canada are now convinced of the enormous wealth of natural resources in the more northerly portions of Canada and of the success of the Hudson Bay Railway and Hudson Bay route to the markets of the old world.

There had long been a suspicion in the minds of many Western people that the former opposition in Montreal and other Eastern centres to the construction of the Hudson Bay Railway was based, not on their professed scepticism as to the feasibility of the route, but because of their belief that the route would prove to be an unequalled success, with all the upheaval which the opening of this short route from the heart of the prairies to the markets of the world would cause in existing transportation conditions, rates, and routing of traffic.

Examination of the plans of the railways, as thus far outlined, indicate a reversal of formerly held views that the people of Western Canada should be served by lines running east and west, with all the tremendous production of the prairies moving out either to the Atlantic or the Pacific seaboard, and all our imported products coming in through the same ports. Now, both of the great railway companies appear to be determined to connect up their east and west lines by short branches here and there and the construction of great north and south main lines, all stretching hundreds of miles north of existing settlement and heading towards tidewater in the north. A veritable railway revolution is in prospect.

This declaration of absolute confidence in the northern half of these prairie provinces, and in the Hudson Bay outlet, evidenced by the willingness of the biggest financial men in Canada interested in the C.P.R. to expend tens of millions of dollars in northern extensions, will attract the attention of the whole world and will constitute the greatest publicity this section of the Dominion has ever received.

Regardless of the decisions reached by Parliament as to division of the northern territory between the rival systems, and the respective zones to be allotted to each, the result will be to roll back the map of Canada hundreds of miles. The old reproach and weakness of Canada that it consisted of a narrow strip of more or less settled territory extending thousands of miles from the Atlantic to the Pacific along the Canada-United States boundary line, is to be removed. To the Dominion will be given great depth as well as great width, and what for centuries has been looked upon as barren wastes of extensive territory, but of no value, will become a storehouse of treasure, the development of which will add enormously to the population and wealth of the Dominion, providing new avenues of employment, and diversified employment at that, for the people of Canada.

Arsenic in Canada

All the white arsenic produced in Canada is obtained by treating the arsenical silver-cobalt-nickel ores of northern Ontario. Arsenical gold concentrates are shipped from British Columbia to the United States.

Canadian Cheese

The production of factory cheese in Canada in 1926 amounted to 171,731,631 pounds. The value was \$61,733,390.

Utilizing Coal Resources

The new Fuel Research Laboratories of the Department of Mines at Ottawa, were designed and the equipment selected with a view to carrying out investigations which would be in the interest of the development of the coal resources of the Dominion.

Snake bites kill more than \$1,000,000 worth of cattle in Texas each year.

Simple Precautions Against FLU

Sore Throat —

— The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—the cold is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippé, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

Alberta's Peer's Estate

Estate of Earl of Egmont Estimated To Approximate One Million Dollars In Value

That the estate to which the Earl of Egmont, of Trinidad, Alta., has fallen heir, will approximate one million dollars is an estimate made at Calgary with his assistance.

The bulk of the estate comprises Avon Castle, the family seat at Ringwood, Hants, and 1,309 acres surrounding it.

Some \$40,000 has been spent lately in improving the land and the residence, declared the new earl.

In addition, he says, there are investments in stocks and shares and in war bonds amounting to a large total.

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat, constipation, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent damage. The treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food is not digested, gas forms, causing pains, often around the heart. Instead of getting well, the system gets poorer. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempton, N.S., but now living with her son at West Bethel, Me. Mrs. Cushing says: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompanied this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. I am now in my 76th year I am feeling as well and smart as I did at 35, and an enjoying life once more." You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Speakers At Dinner Of Canadian Society

U.S. and Canadian Senators Guests At Function in New York

The Canadian Society of New York held to strengthen the North American entente cordiale by bringing together as their guests at their annual dinner two senators, one from the Canadian Upper Chamber, Hon. C. P. Beaulieu, K.C., and the other from the United States House, Hon. Simon D. Fess, of Ohio. The speakers dealt with the aspirations of the two countries.

Senator Fess frankly discussed the two chief issues now agitating this Congress, the Kellogg treaty and the new cruiser program, and he readily supported both. The United States, he declared, should not put any obstacle in the way of the effort to banish war.

Senator Beaulieu reviewed the development of Canada in recent years and painted a glowing picture of the Dominion's future.

"Canada, with a vision quickening and widening, has remained sober-minded, fair and honest, and I think I can add, hardworking and still law-abiding and God-fearing," he said.

Hewitt—I suppose you joke writers are always looking for a funny thing.

Jewett—"Yes; glad to have met you."

The silencer for firearms was invented by Maxim in 1909.

Shows Canada's Loyalty

London Paper Expresses Appreciation Of Reverse To Penny Postage

The London Sunday Times in an editorial headed "Canada leads the way," welcomed the increased British immigration quota as emphasizing the practical loyalty of Canadians to their British stock, but fears that the proper advantage may not be taken of it in Great Britain. The newspaper quotes further encouragement both of propaganda and finance. The Sunday Times also expresses appreciation of the penny postage and finds in it: "a signal proof of Canada's strong imperial sentiments."

After urging Hon. Winston Churchill, chancellor of the exchequer, to follow Canada's example the Sunday Times advocates a common empire stamp which, it states would have a real psychological value as a symbol of imperial unity.

Fresh Supplies In Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Kellogg Explains Treaty

The Paris pact for renunciation of war commits one of the signatories to it to go to war in defence of any country attacked in defence of the treaty. Secretary of State, Frank B. Kellogg, informed the Senate committee on foreign relations during the recent hearings. He added that Canada made it plain that the dominion would not be a party to the treaty unless that was understood.

Minard's Liniment prevents Flu.

The most popular marriage age in England is 23 for brides, and 24 for bridegrooms.

A power shovel being built at St. Louis, will dig fifteen cubic yards at one bite.

Proves Columbus Was Spaniard

A document found in the archives of Fustovetra, Polish, mentioned that place as having been the birthplace of Christopher Columbus. It thus bears out the claim that the discoverer of America was a Spaniard and not a native of Genoa, Italy. The document contained a description of the burial of Columbus.

LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against castor oil and strong purgatives but here's a medicine that just suits him. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is soothing, cross, fretful babies and children to sleep and making the forebath, constipated upset ones well and happy, in millions of homes today. Castoria is purely vegetable, harmless and endorsed by the medical profession. Avoid imitations. The Chas. H. Fletcher signature marks genuine Castoria.

Frenchman Invented Eyeclet

French celebrated recently the centenary of the birth of the metal eyeclet. Francois-Jean-Guillaume Goubaud was the inventor. The first application of the eyeclet was to corsets and it gave that industry a great impetus. Eyeclets later were put in shoes.

Awful Asthma Attacks Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

An acquaintance says the most undesirable place in the world to live is beyond one's income.

Minard's Liniment for the Grippé and Flu.

The palatial stables of the former German Kaiser have been converted into Berlin's first indoor tennis court.

For Colds —

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

Good and Poor Crops Cost About the Same, But Profits Come From Use of Good Seed

Outside of a little extra expense in harvesting, the cost of producing a good crop and a poor one is about the same, but the profits to the grower of the two vary greatly. Usually an average crop barely pays the cost of growing, and a poor one registers a loss. On account of the overhead, which remains fairly constant, despite the yield, it is of prime importance to the producer to get the very highest returns possible from his land. In this connection the seed used is one of the most important factors. Farmers have no control over sunshine, moisture or storms. They have little protection against early or late frosts, but they have very definite control over seed.

It is to get producers to exercise this control that the Provincial and Federal governments are co-operating in putting on better seed campaigns. "Clean, sound, plump, well graded seed will produce from 10 to 100 per cent. more crop than weed-infested, ungraded seed," states Hon. John B. Martin, Ontario's Minister of Agriculture, who points out that increased crop yields lower the cost of production and that the lowering of this cost is the best way to increase farm production. He advises the purchasing of the seed supply from reliable seed houses or careful growers, from which, incidentally, the seed houses purchase their supplies, which are cleaned up by them and government graded before being offered for sale.

Not only does dirty seed produce a smaller crop for every seed sown, because the poor grain will not yield as high an average as plump, clean graded seed, but there is a direct loss from the growth of the weeds in this supply. Weeds occupy a considerable portion of the land that should be occupied by the grain, and, in addition to this, going to seed usually before the regular crop is ready to harvest, they pollute the land for another year.

The cost of the seed is a minor factor. According to the Dominion Bureau of Statistics, the average yield of oats in Canada for the last ten years runs slightly under 31 bushels per acre, which at current prices are worth about \$18. The extra cost of good, clean, graded seed over the commercial variety to seed one acre of oats would not amount to more than a dollar, but where this good graded seed is used, the return should run, according to Government figures, at the very least 40 bushels to the acre. In other words, for an expenditure of only one dollar the returns in dollars and cents would be increased by over \$5 per acre.

Subject To Revision

Overheard in the fur trade—two salesmen speaking:
"Vat was your holiday business, Maurus?"
"Hundred and ten thousand dollars, Sidney."

"Vat?"
"As true as I'm alive. How much you get?"
"Hundred and tholdy thousand."
"Vy you lie to me?"
"Vell, you come down a leetle, I come down a leetle."

Parson: "do you know where little boys go to when they smoke?"
Boy: "Yes, up the alley."

"Meet me in the Art Museum. It is heated—and there is never any body there."—Nebelspatter, Zurich.

ASSISTS INDUSTRY

A. T. ROBLIN.

To help locate and assist in the development of new industries in the Province of Saskatchewan will be the work of A. T. Roblin, who has just been appointed Canadian National Railway's industrial agent, with headquarters at Saskatoon. Mr. Roblin was born at London, Ont., 32 years ago, and has been with the National system for 13 years. The establishment of the new office in Saskatoon is in keeping with the rapid development of Saskatchewan and the policy of the Canadian National Railway in keeping abreast of the progress of the Dominion.

Arranging For Speed Tests

British Auto Racer Expects To Travel At 240 Miles An Hour

Preparations are under way by the contest committee of the American Automobile Association to arrange for Major H. O. D. Segrave, British racing driver, to conduct speed tests at Daytona Beach, Fla., where he expects to travel 240 miles an hour. Segrave's machine, the "Golden Arrow," is constructed on radical ideas of streamlining, the association announced, and is expected to gain speed through design rather than brute strength. The machine is powered by a 13-cylinder Napier airplane engine with the hood fitted over the engine like a glove. The length of the car over all is 25 feet, and its width six feet. It weighs two and one-half tons. In first gear the machine is said to make 80 miles an hour, 160 miles an hour in second gear, and more than 240 miles an hour in top gear.

Ice may be used to cool the water used in the engine.

Speed tests at Daytona Beach are expected to start in March, the association said.

The present record of 207.552 miles an hour is held by Ray Keesch, American driver.

Robbing It In
Miss. Leftover—Dad's going to give me a carved cedar hope chest for a birthday present.

Miss Tarte—That'll be nice. Cedar's mothproof, so your things will keep years and years in it.

The Staggering Load Carried By the British Government As A Result Of the Great War

Flower Guide For All Canada

A New Edition Of A Most Useful Work Is Now Available

The bulletin "Annual Flowers," issued by the Department of Agriculture, at Ottawa, although published in large editions has had to be repeatedly reprinted to meet an extraordinary demand for it. A new edition of this wonderful useful work by Miss Isabella Preston, specialist in ornamental horticulture at the Experimental Farm, Ottawa, is a very attractive booklet, which not only describes the thousands of varieties but shows many of the blooms arranged in vases, as well as general views of flower beds and borders.

This bulletin is useful as a guide in all the provinces, as it gives the names of twelve varieties that have done best at each of the twenty-one Experimental Farms and Stations distributed over the different provinces.

This booklet, which is Bulletin No. 60, and available at the Publications Branch, Department of Agriculture, Ottawa, is a trustworthy guide to one when studying the seed catalogues that arrive in the homes at this season of the year.

Lead Production In Canada

Greater Part Of Lead Produced In Canada Mined In B.C.

Much the greater part of the lead produced in Canada comes from the refinery at Tadanac, British Columbia, which treats lead concentrates from the Sullivan lead-zinc mine at Kimberley. The output of this mine far exceeds that of all other Canadian lead mines put together. There is also a considerable production from numerous silver-lead and silver-lead-zinc mines in the Kootenay districts and other parts of British Columbia. The Yukon output is silver-lead ore from the Mayo district; that of Ontario is derived from galena, at the Galesita mine, in Carleton County; and Quebec's output is lead concentrates from the Notre-Dame-des-Anges lead-zinc mine.

Educating The Negro

During the last ten years, colleges for negroes in the United States have doubled in number, and have increased their enrolment six hundred per cent. Special attention is being given to the training of men and women for professional work and yet there is but one negro physician amongst 3,343 of the negro population, while there is one white doctor to every 63 whites.

A group of Indian women, aided by English and American women, are actively working for the betterment of women in India.

One of the most striking statements issued recently by the British Government in relation to the burden of debt entailed by the Great War, was the announcement made by the Minister of Pensions, who said that by March, 1929, \$4,300,000,000 would have been expended in pensions to injured and disabled ex-service men. This is an astounding statement, and speaks convincingly of Britain's gigantic effort in the terrible struggle of a decade ago. The number on the pension roll totals 970,000, aggregating with dependent wives and families, 1,500,000 persons. Final awards on life pensions were granted to 370,000 officers and men.

In the 11 years of its administration the department has spent on medical treatment \$75,000,000; on special allowances to patients and families during treatment \$172,500,000, and is spending yearly on this branch of work \$15,000,000. Since 1927 the Ministry of Pensions and the Ministry of Labor have expended over \$240,000,000 in the training of ex-service, disabled and other men, including allowances to families during training. A sum of \$50,000,000 was spent in civil liabilities grants. The number of unemployed disabled men has been reduced to 19,000, of whom only 7,000 are classified as men whose disablement makes it difficult for them to work at their former occupations, or at similar ones.

Moreover, the policy adopted of persuading employers to give work to disabled men has led to the engagement of 380,000 men. The expenditure of the Ministry of Pensions for the current year is \$285,000,000. A comparison of statistics shows that while Great Britain has actually expended \$3,855,000,000, France has spent \$2,250,000,000, and Germany \$1,750,000,000. One creditable feature of the statement is that the percentage of unemployment among disabled ex-service men is smaller than among the civilian population.

In addition to this tremendous outlay for pensions to disabled men, Britain has been paying for the debts to the United States which were contracted by the Allied nations, and which were guaranteed by the British Treasury, as well as providing for the recovery of the nation from the economic impoverishment caused by the war. It is a record of which the people of the British nations everywhere may well be proud.

Immigrants Arrive

The first party of immigrants from Canada under the provisions of the £10 fare scheme worked out by the British and Canadian government, arrived recently in Halifax on the Cunarder Antonia and the White Star liner "Laurentic." They entrained soon after arrival for placement on Canadian farms.

Oldest British Doctor Dead
Sir David Maurice, Surgeon, believed to be England's oldest doctor is dead at the age of 99. A poet as well as a man of medicine, the late Sir David Serjeant had a long and varied career. He was knighted at the age of 91 for his patriotic poetry.

"Come here and be spanked, Toto."
"But I haven't done anything."
"No, but I shan't be here tomorrow to see your school report." — Felix Mele, Paris.

PAYS TRIBUTE TO DEAD EXPLORER

En route from the United States to Antarctica in an attempt to reach the South Pole by air, Commander Richard E. Byrd, stopped over at Christchurch, New Zealand, to lay a wreath upon the memorial erected there to Captain Robert Falcon Scott, the British explorer, who reached the South Pole on January 17, 1912, but who lost his life on the return trip, dying of cold and starvation when within eleven miles of one of his food and supply depots. In the illustration the American leader is seen as he appeared at Christchurch while delivering a eulogy of the British achievement and character. (2) is a picture of the late Captain Scott, while (3) shows Byrd saluting the Scott memorial at Christchurch, after having placed a wreath at its base.

CONSTIPATION RELIEVED QUICKLY

CARTER'S LITTLE PILLS

This Purge Vegetable Pills will move the bowels without any pain and depressing after-effects. Sick Headache, Indigestion, Biliousness, Bad Complexion quickly vanish. Children and Adults can easily swallow Dr. Carter's Little Sugar coated pills. They are free from calomel and poisonous drugs. All Druggists Sell and Read the Pink Label.

CARTER'S LITTLE PILLS

WORLD HAPPENINGS BRIEFLY TOLD

The Kellogg anti-war treaty has been ratified by the Senate at Washington.

An increase of \$25,000,000 in the fund for prohibition enforcement has been approved by the U. S. appropriations committee.

Captain Hermann Koehl, pilot of the first westward trans-Atlantic airplane, Bremen, was injured at Arosa, Switzerland, when he crashed while skidding.

American "Friends of the Prince of Wales" have come forward with an anonymous gift of \$100,000 for the relief of distress in the coal fields. It was announced in London.

It is understood the salary of Sir Basil Blackett, newly appointed chairman of the merger company controlling Imperial wireless and cable communication will be \$10,000 a year.

A fund opened by a Toronto newspaper for relief of the unemployed of Great Britain reached a total of \$28,094. The money was sent to swell the Lord Mayor's fund being raised throughout Britain.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE

Baby's Own Tablets Are the Ideal Remedy For Babies and Young Children

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says:—"I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Modern Books Short Lived

The life of modern books is much too short. When a good novel comes out it has its time of triumph, which seldom lasts beyond a year. After that it falls out of discussion, and instead of regiments of readers there are none at all. In July 200,000 people may be seeking a book and talking about it, and even reading it, and then with the first frost the matter is dropped, entirely. When a popular success begins to decline it falls faster than an albatross.

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds its place in every home and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of having a constant. It is on sale everywhere and can be found wherever engaged for.

Disgruntled Patron (leaving cinema)—"I've never seen a rottenner picture!"

Commissionaire—"Ever 'ad yer photo took?"

Always Keep Cuticura Preparations On Hand

The Soap, because of its absolute purity and emollient properties, is unsurpassed for every-day use. Assisted by Cuticura Ointment it does much to keep the skin and scalp healthy. Cuticura Shaving Stick makes shaving easy for tender-faced men. Cuticura Talcum is the ideal toilet powder.

Sample Soap Free by Mail. Address: Canadian Agents: "Cuticura," Ltd., Montreal, Quebec, 350 St. Catherine St. East, Montreal, Quebec.

Small Cuticura Shaving Stick 25c.

Industrial Manitoba

Agriculture Has Now To Take Second Place To Manufacture—In Western Province

Agriculture now has to take second place to industrial manufacturing in Manitoba, according to figures of the Industrial Development Board. An estimate made by the Board places the output of manufactured goods in Manitoba this year at \$139,252,000, as compared with \$132,000,000 during 1927. The agricultural wealth produced in 1927 was placed at \$147,000,000.

"Flu" "Flu" "Flu" It Is Everywhere

DANGEROUS PNEUMONIA MAY FOLLOW UNLESS A GOOD RECOVERY IS MADE

With so much Grippe and Flu about, no one can afford to neglect even a simple cold. For a real protection against "Flu" many experienced sanitarians advocate the following simple treatment.

Put a saucpan containing one pint water on the stove, then add one-half teaspoonful of Catarrhazone, and bring to a boil. Bent over the steaming water; wrap a towel over your head so that it also covers the face. Let the steam rise so you can breathe the vapors. Repeat this treatment. The healing fumes of Catarrhazone will quickly disinfect your nose, throat and lungs. Flu germs are destroyed.

You can prevent Grippe, Flu and influenza by using Catarrhazone. It is healing, soothing, safe and efficient. To stop colds, sore throat, or larynx, nothing is more satisfactory than Catarrhazone. Even to sit in a room with Catarrhazone Vapor rising from a pan of boiling water is a wonderful protection for children and overcomes all sorts of winter coughs and colds. All druggists sell Catarrhazone, 50c. a bottle.

First American Forest Law

Was Written In Massachusetts Colony On March Twenty-Ninth, 1629

The Pennsylvania department of forests and waters at Harrisburg, recently conducted an investigation revealing that the first American forest law was written in the New Plymouth Colony, in Massachusetts. The original American forest law read as follows:

"Orders agreed on several times for the general good of the Colony: It was decreed by the Court held on the 29. of March Anno. 1629. That for the preventing of which inconveniences, as does, and may befall the plantation by the want of timber, that no man of what condition soever sell or transport any manner of woods or frames, for shoups, planks, boards, shipping, shallops, boats, canoes or what so ever may tend to the destruction of timber aforesaid."

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonics in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Will Burn Ice

Burning out of ice on the St. Lawrence River will be attempted by Dr. Howard T. Barnes, of McGill University, with whom the government has made an agreement from the department of marine and fisheries, the purpose being to free Montreal harbor from the grip of winter earlier than usual and to prevent the flooding of the country between it and Sorel.

The latest wonder of agriculture, is a cabbage plant which produced six heads of cabbage in turn, one above the other.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published by the Saskatchewan Dental Society

WEIGHING OF FOOD

You have suffered the annoying experience of having stringy foods wedge between your teeth; and you wonder what can be done to remedy it.

Normally, teeth should be tight together with rounded contacts as when two marbles touch; but through tooth decay and from teeth "drifting," this contact is lost.

The food then "rams" between the teeth and is held there until released—what results?

Obviously, decay is liable to be incited in this area. Also this impacted food material presses upon the soft underlying tissues, until they become irritated and inflamed. Thus injured, they lose their "tone" and fall an easy prey to the microorganisms that caused decay.

This follows the destruction of this wedge shaped tissue between the teeth; a "pocket" is formed, which, becoming infected, results in the progressive destruction of the supporting structures of the teeth, which are then lost.

You see then, what grave damage can result from so simple a cause. Now, the remedy is not the tooth-clip, which, through its indiscriminate use, may do further harm, and which best provides but temporary relief.

But, where this "wedging" is first noticed, the insertion of a file, one or both of the involved teeth to restore the contact, will clear up the trouble.

This may even necessitate the removal of a faulty filling already in place but far better this than to suffer for the prolonged discomfort from "wedging" food, with its train of grave consequences, should it go unchecked.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. A safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right out. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

Must Keep Drama Clean

Bransby Williams, English Actor, Deplores Modern Tendency

"I am ashamed of the way in which the stage is being run in the United States, Canada and Great Britain," Bransby Williams, English actor, said in addressing the Brockville Rotary club, adding that, for the sake of the rising generations, the stage has got to be kept clean and the pictures "must be kept cleaner." In moving-picture theatres, he said, boys and girls are today reading titles that are despoiling the English language, and on the stage itself there appears to be no longer room for good, clean, beautiful plays, while the bookstores are full of questionable reading matter.

A pleasant medicine for children is Mother Grave's Worm Exterminator, and it is excellent for driving worms from the system.

Medical men will continue to walk in Bermuda. The House of Assembly has refused to make exceptions to a law prohibiting use of cars on the island.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

An editorial typtist has lost her job for sending this to a contributor: "The editor regrets that he is unable to make use of the enclosed owing to lack of space."

Saskatchewan mined 470,000 tons of coal during 1928, according to an announcement received from Ottawa. This is the same amount as was produced in 1927.

SUNDAY SCHOOL LESSON

JANUARY 27

THE HOLY SPIRIT

Golden Text: "For as many as are led by the Spirit of God, these are sons of God."—Romans 8:14.

Lesson: Joel 2:28, 29; Luke 11:13; John 8:5-8; 14:16; 17:26; 15:26, 27; 16:7-15; Acts 2:1-21, 32, 33; Romans 8:1-17, 26-27; 1 Corinthians 12:1-13; Ephesians 1:13, 14; 3:14, 21; 4:1-6, 30.

Devotional Reading: John 14:26-31.

Explanations and Comments

What the Holy Spirit Will Do, John 16:7-11.—Jesus told His disciples that it was expedient for them, it was for their advantage, for their best interests, that He should leave them. How could it be best for them to lose the daily companionship of their Lord and Master? Jesus gives the answer: "For if I go not away, the Comforter will not come unto you; but if I go, I will send him unto you." The Greek verb from which the noun Parakletos, Paraclete, is derived, means to call, to aid; the noun, therefore, stands for one who is called to another's aid, whether to comfort (comforter), to plead his cause (The Advocate), or to help in some other way (The Helper).

The word Comforter used here for Parakletos, means One who strengthens, upholds, rather than One who consoles. The Holy Spirit is (1) the continued life and presence of Christ Himself. While He was present with the disciples in the body, His humanity obscured in a measure His divinity. When the Holy Spirit came upon Him he revealed Christ to them, made plain all the spiritual truth of His teaching (verse 13). They knew Him better after He had left them. (2) While Jesus was with them, they were weak men, unable to stand alone. After He went away and left them as witnesses to carry on His work, they became the towers of strength, wonderful leaders of men who continued to do all that He began both to do and to teach. (3) By leaving a few, Christ became the Companion of all. While He was on earth He was with a few men in a small band; now He is with all everywhere, at all times. He is the universal Spiritual Presence.

He is His own Comforter shall need. The promise of the Father, who shall dwell

in His Spirit within them, and the law of faith, Working through love, upon the heart shall write

To guide him in all truth."—Milton.

"We have no outside, distant, occasional Saviour, as the disciples had long ago; but His Spirit, His other Self, to abide with us, in us, today, tomorrow, forever."—Malbair D. Babcock.

Use Minard's Liniment for the Flu.

Customer (doubtfully): "Is it a pedigree dog?"

Dealer: "Pedigree! Why, if this dog could talk he wouldn't speak to either of us!"

APPROVE NEW RURAL SCHOOL PLAN IN ALBERTA

Edmonton.—Approval of the Baker rural school plan, sponsored by the Alberta government, was voted by the convention of the United Farmers of Alberta here. A vote, taken on the questions, favored approval of the Baker system by 209 to 101. According to the resolution the convention favored raising funds by grouping rural school areas in one district under a flat mill rate on assessed valuation.

Hon. P. E. Baker, minister of education in the Alberta government, was the most prominent figure in the discussion on the system which bears his name. In the midst of a debate he was summoned into the argument at the request of the farm delegates. After outlining his system, the minister of education answered queries on the matter until the program was halted. According to the projected system, the province would be divided into 20 divisions of 15 school districts each. Chairmen of the district boards to form a general board, which, with the minister of education, would supervise rural educational matters in Alberta. Selection, placing and payment of teachers under the Baker plan, would be handled by the general board.

In the discussion on the Baker idea "government by proxy" was quoted as a name for the proposed mode of rural educational supervision. It was claimed that, regarding single taxation areas, "none would stand for a blanket tax assessed by a bureau of the government."

In answering his critics, Mr. Baker denied the "bureaucracy" and "government by proxy" allegation, and stated that the system would be governed by appointed representatives of the ratepayers. He estimated that the increase in taxation, necessary to pay for the better supervision the new system would involve, would be covered by a one-quarter mill increase on the entire rural area. And he contended that the new plan would place experts in charge of the allocation and selection of teachers.

Farm Loan Board

Ottawa.—While no announcement has yet been made as to the personnel of the farm loan board who will act with Dr. J. D. McLean, former Premier of British Columbia, and recently appointed to the chairmanship of that body, the understanding in the capital is that Hon. R. G. Drury, former premier of Ontario, and Beaudry Leman, president of the Banque Canadienne Nationale, will be named.

Gigantic Wave Strikes River

New York.—Lenardo Fioroni, cook, was killed and several other members of the crew were injured by a gigantic wave that surged over the bow of the White Star liner *Majestic* on the crossing completed when the ship docked here. The wave twisted steel bulkheads, wet the mail, ruined part of the cargo and necessitated removal of the 289 third class passengers to other quarters.

Gift For McGill University

Montreal.—A gift of \$5,000 has just been received by the McGill faculty of applied science from Walter W. Colpitts, of New York, to establish a graduate scholarship in civil engineering at the University in honor of Dr. John Densall Porter, emeritus professor of mining engineering. Mr. Colpitts graduated in 1899 from McGill faculty of applied science.

Again Heads Alberta Farmers

Edmonton.—Opposition to reelection of H. W. Wood as president of the U.F.A., was drowned in a vote which swept him into the first executive office for the fourteenth time. To a motion that he be "retired" as honorary president was added an amendment that he be made president. The amendment was passed by overwhelming vote.

W. N. U. 1799

Woman Leads Defence In Murder Trial

Praised For Plea in Old Bailey, But Failed to Receive Acquittal

London.—Miss Venetia Stephenson failed to secure acquittal at the central criminal court of the first man she had defended on a charge of murder, John Holmy Ward, aged 24. The jury without much delay returned a verdict the prisoner was guilty of the murder of his grandfather, a bookmaker, who was found with his skull fractured in Pimlico. But she received the warmest congratulations upon her case for the defence from Mr. Justice Humphries. Miss Stephenson eschewed any attempt at rhetoric. "I am fighting, for this young man's life and it words fail me it is because I appreciate the responsibility that rests on me," she said.

Miss Stephenson, however, used carefully chosen sentences when she passed to a review of the evidence, urging the manner in which the accused's grandfather met his death was consistent with the younger man defending himself from attack by the elder.

"I know you will not let sympathy for the dead over-ride justice for the living," were her last words. "This is the most solemn moment of my life and I leave this young man's life in your hands, with a prayer that God might lead you to the right conclusion."

His Lordship in summing up said it was difficult to accept the theory of self-defence.

Western Pioneer Dead

Major Augustus Mills Came to Winnipeg in 1870

Winnipeg.—A pioneer of early western Canadian military expeditions, Major Augustus Mills, 79, is dead at his home here. He came to Winnipeg in 1870 as a member of the first Lord Dufferin expedition, and later participated in the rebellion in 1885 as a captain in the Canadian Infantry, which made a far western march in search of the Indian chief, Big Bear.

For a time he was a Dominion government land agent and then, in 1888, as a captain in the Canadian Infantry, which made a far western march in search of the Indian chief, Big Bear.

Free Trip Offered Students

Paris.—A free trip from Montreal to Paris with expenses for 15-day sojourn at its hotel to the student graduating with highest honors at Canadian Universities is to be offered by J. G. Mettraller, administrator of a Paris Hotel, if arrangements can be made with Canadian University heads. Mettraller is president of several hotels in France and Switzerland.

Air Pilot Killed

Toledo, Ohio.—Ted Hay, 30, pilot, for Trans-continental Air Transport Company here, was killed when his plane crashed as he was attempting to land. Witnesses said one of the wings of Hay's ship collapsed as the aviator soared 75 feet above the field for his landing. The low altitude apparently prevented him from righting the plane.

Will Participate In Scheme

Regina.—Manitoba will again participate in the British boy immigration scheme it has been announced by Hon. Albert Frentonale, Minister of Agriculture for Manitoba, who stated that a regulation would be forwarded to the British authorities to bring 50 youths to that province this spring.

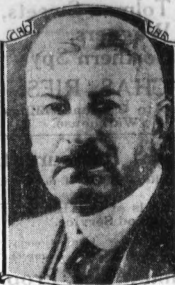

Fuel Tanks of Amundsen Plane

Paris, France.—The French builders of the Latham plane in which Roald Amundsen and his companions were lost while hunting the wrecked dirigible Italia, in the Arctic, announced that fuel tanks found floating off Norway exactly conformed to those used on the Amundsen plane. Five others were lost with the famous explorer.

Tennis Champion Engaged

Berkeley, Calif.—Engagement of Helen Wells, national women's tennis champion, to Frederick Shand Moody, Jr., San Francisco stock broker, has been announced.

RETIRE FROM BUSINESS

After 42 years as assistant manager of western business for the Canadian Bank of Commerce, C. W. Rowley has retired from business. He is recognized as one of the leading bankers of Canada, and is well known in the west.

Railroad Wreck Was Caused by Drunkenness

Roumanian Train Crew Responsible For Death of Fourteen Persons

Bucharest, Roumania.—Railroad inspectors said that drunkenness on the part of the engineer and crew of the Bucharest-Temesvare express cost the lives of 14 persons. In addition to the fatalities about two score passengers were injured at Prungor, near here, when the express crashed into a local train which had been derailed.

The express was plunging along at 55 miles an hour in the dead of night when the crash occurred. The engineer of the express, which was heavily laden, was apparently blind to all signals. In their excitement over the derailed local train station officials apparently forgot about the onrushing Bucharest express, which ploughed into the passenger coaches of the local train like a catapult.

Children Victims of Ranch Fire

Winnipeg.—Two young children, one six months old and the other two years, were burned to death when fire destroyed a ranch home near Arden, Manitoba, south of here.

Great Increase Shown In Canadian Trade

Advance of Nearly 235,000,000 During Last Nine Months

Ottawa.—Canada's total trade advanced nearly \$235,000,000 during the last nine months of 1928. The total of \$2,007,860,168 compares with \$1,773,092,534 for the corresponding period in 1927.

Figures were made available at the department of national revenue. Domestic exports were valued at \$1,071,647,164, an increase of \$121,542,797 over the comparative figures of \$950,104,367 in the previous year. Wheat exports alone moved upward more than \$81,000,000, while newsprint and automobiles were substantially heavier.

Will Sail For England

New Earl of Egmont, to Leave About 2nd of February

Calgary.—The new Earl of Egmont, Frederick Joseph Trövelyan Percival, who for the past thirty years has been ranching in the Calgary district and who recently fell heir to a big estate in Great Britain, will leave about the end of February for England.

He will be accompanied by his fourteen-year-old son and heir, the Hon. Frederick George Moore Percival, and Mr. and Mrs. Harry Trimmer, of Priddis, who have been friends of the new earl for many years.

Increase In Dairy Products

Fredericton, N.B.—The value of cheese, dairy and creamery butter in Canada during 1928 will show an increase of more than \$11,360,000 over the preceding year, J. F. Singleton, chief of the dairy markets division of the federal department of agriculture, told delegates to the New Brunswick Dairyman's convention in session here.

Salary Revision For Mail Clerks

Ottawa.—New classification and salary revision for mail clerks throughout the Dominion is considered probable by J. P. O'Farrell, of Quebec, president of the Dominion Railway Mail Clerks' Association. Mr. O'Farrell expressed himself thus after appearing before the Civil Service Commission with proposals along these lines.

CANDIDATE FOR THRONE

Count Folke Bernadotte, of Sweden, shown above, with his bride, formerly Miss Estelle Manville, of Pleasantville, N.Y., is one of the two foremost candidates for the throne of the United Baltic Kingdom, which it is proposed to form by merging Estonia, Latvia and Lithuania.

GERMAN PLAN FOR NEW CRUISER IS PUBLISHED

Berlin.—Publication by the London Review of Reviews of the text of a secret memorandum in which General Groener, German minister of defence, defended the necessity for the construction of a new battle cruiser has caused considerable consternation in government circles here.

The memorandum was known only to cabinet members and a restricted number of persons official quarters are at a loss to explain how the "leakage" took place and an investigation has been ordered.

It is considered in Berlin that there is no doubt the London publication was from the original text and the indignation of the press is increased because the memorandum was withheld even from members of the Reichstag, who are determined to interrogate the government on the "scandal."

London.—Wickham Steed, editor of the Review of Reviews, said that the Groener memorandum he had published is "perfectly authentic and was not stolen."

"It reached me in an ordinary way through a channel that I trust and I satisfied myself as to its authenticity. They can make all the investigations they like as far as I am concerned."

Discussed Problems Of Egg Marketing

Canadian Producers' Association To Take Matter Up With Government

Toronto.—Egg marketing problems were discussed at the annual convention of the Canadian Producers' Association here. In view of the unprofitable situation which has confronted the dealers on account of surplus supply it was decided that a committee be named to take the matter up with the Dominion government. W. S. Cameron, Toronto, president of the association, suggested that the committee be representative of dealers, exporters and producers.

Alfred McCann, of Cheltenham, Ont., urged that advertising calculated to insure the consumption of eggs should be undertaken by the government.

Mr. Cameron in his presidential address, stated that the season had been a profitable one for the egg producers but on the average it had been unprofitable for the dealers. Consumption per capita in Canada had risen from 16.06 dozen in 1924 to 29.67 in 1927, and he expected the 1928 figures to show more than 30 dozen per capita.

To Aid Paraguay Farmers

Asuncion, Paraguay.—The Paraguayan government decided to set aside 25,000,000 pesos credits to farmers who are unable to harvest their grain because of the absence of farm hands in the army mobilized recently in the dispute with Bolivia. The government also is trying to demobilize the farmers first and as quickly as possible.

Ask Customs Rebate

Ottawa.—The government is being asked by the British Columbia Sugar Refining Company to include in the forthcoming estimates the sum of \$36,524.88 with interest, being the balance of \$59,358.83 claimed, to have been overpaid by the company in custom duties.

Hundreds Killed By Earthquake

Peking, China.—Hundreds of Chinese were killed in an earthquake in the Northwest part of Shanai province, dispatches published here said. The earthquake occurred near the Mongolian border in a section suffering from a famine.

Fear Revolution

New Orleans, La.—Isaac Lehman, representative of a New York cotton goods manufacturer, arrived here with a report that United States citizens and other foreigners were fleeing Spanish Honduras in expectation of a revolution.

Here and There

(214)
For the first time in history, an
airplane has been arriving from
the wilds of Northern Mani-
toba to the Winnipeg market. Hol-
lock Kenyon, acting as "Craberry
Portage for B-o-c-k-e-t settlement re-
cently, taking Del Symonds, veteran
freder who always was to beat all
competitors who take a month to
travel by dog team.

During 1925 between 5500 and
5,700 Prince Edward Island foxes
have been shipped abroad. The in-
crease over the 420 shipped the
preceding year. These have been
handled without a single known
casualty. Since the middle of Oc-
tober foxes have been shipped to
Norway, Sweden, Scotland, Ger-
many, Czechoslovakia, Bavaria,
Finland, France, Holland, Switzer-
land and Japan.

Forty-two years of service with
the Canadian Pacific Railway with-
out having broken any of the com-
pany's rules or otherwise earned a
mark against himself is the unique
record held by Arthur W. Savage,
engineer, who has just retired on
pension. Mr. Savage, who is well
known throughout the Eastern
Townships, fired the train that laid
the first steel on the line between
Sherbrooke and Farnham.

The old English Yuletide Festival
held at the Empress Hotel in
Victoria, B.C., proved to be one
of the most popular events of last
year. Carols and yuletide music
were rendered, the ancient "Chea-
ter Mystery" staged, and Dickens'
"Mrs. Wardle's Christmas Party"
was produced. The festival cul-
minated in a ball at which some
seven hundred persons attended. It
is believed that plans are already
being made for a larger and better
celebration next year.

A change in telephone numbers
has drawn attention to the train
inquiry office in the great Windor
Street Station of the Canadian Pa-
cific Railway in Montreal. The
girls who are on duty there handle
each on an average of 200 calls an
hour, and as many as 300 an hour
during rush times. They carry
most of the information in their
heads and seldom have to refer to a
time-table. They are asked
queer questions sometimes. Re-
cently someone asked, "When does
the afternoon begin," and the girl
poor turned up "What time does
the four o'clock train leave."

Dr. Knechtel, a farmer residing
about four miles east of Stony
Plain, Manitoba, has about 6,000 bushels
of Reward wheat which he is going
to ship out all over Western Cana-
da in two-bushel lots as soon as
the list of addresses arrives from
Ottawa—for the project is under the
superintendence of the Dominion Gov-
ernment. As is pretty generally
known, Reward wheat matures
about a week earlier than Marquis
and, for this reason, can be grown
further north. This early ripening
means, roughly, that a new strip of
country 75 by 1,000 miles is made
available for wheat growing.

When Pain Comes

When many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

straight at his husky opponent. The grin was wiped from the big man's face by Andy's compact fist, as it smacked resoundingly on the end of his thick nose with a snap like that of a whip, and with a skilled force that brought blood.

Andy's years of training boxes now stood him in good stead. He well knew that a small man would stand little chance in long range fighting, and he kept well inside the larger man's wild swings. With his closed head tucked against his adversary's body, his fists worked like pistons; he kept sending short jolts to the body that brought heavy grunts every time they landed.

Connie was delicious with excitement. "Hit him, Andy! Hit him! Good! Good!"

And then she groaned as the big man's hand found Andy's throat and flung him to the ground. Little Andy was up immediately, but stepped into a swinging fist that caught him over the eye and sent him sprawling. Undaunted, he came to his feet, waited warily for an opening, and again sprang under the big man's guard.

Andy's fist shot up in a ripping uppercut, that was judged, by a nickety, catching his opponent on the point of his chin with force enough to send him rocking on his heels, and before he could recover himself the same fist, accompanied by his mate, beat a tattoo on his solar plexus.

In desperation the bewildered man wound his arms about the little Australian and lifted him high in the air. Like a game buldog Andy hung on. Though his feet were off the ground he clung to the big man's body like a leech.

Again the big hands felt for Andy's throat, and he was flung six feet to strike with a thump that shook every bone in his body. Connie cried out in fear as he narrowly avoided a brutal blow aimed at his head.

Andy's sense of British fair play had received a rude shock. "As Me-thusalem said," he panted, as he came to his feet, "when in Bohnika do as the Bohnikas do."

"Take that, Spagetti!" he shouted, as he kicked the foreigner viciously on the shin. While the latter leaned over in pain, Andy shot a well-directed uppercut to his face. The big man sat down, a dazed look in his eyes.

Breathless, Donald arrived on the scene, with Gillis puffing in the rear. Breathing heavily, Andy's adversary came to his feet, picked up his hat, and with arms wound about his head beat a hasty retreat. Andy was after him like a hornet, sending stinging blows through his vulnerable guard. Donald and Gillis stood with mouths agape to see Andy administering a sound thrashing to a man twice his size. Right to the edge of the woods he relentlessly pursued his fleeing enemy.

Andy's head was held at its usual cocky angle, and he assumed a swagger as he retraced his steps, but his short legs wobbled and he sank dizzily to a stump.

"I brought 'is blinkin' meat-'ouse down, Connie," he gasped. "Oh, Andy, you're a darling!" she cried, throwing her arms impulsively around the little man's neck, and touching her lips to his cheek.

Andy's florid face took on a deeper magenta, and he blinked hard to hide certain signs of emotion. He afterwards admitted to Donald that he was no "sweet sixteen," and that it was the first time that he had even been kissed in his "blondin'" life.

Connie wet her handkerchief in the

cold water of the creek and bathed his face with tender care.

She showed Donald and Gillis the nest with the motherless birds, doomed to die a premature death by this act of wanton cruelty, and pointed to the tiny bird on the ground, for whose untimely end Andy had taken a well deserved and summary vengeance. Connie choked as the lovely male bird flew to a stalk of goldenrod near its dead mate and sent out its throaty warble.

"Dear, dear, dearie," sang the goldenfinch in a plaintive, questioning note.

Andy presented a pitiful figure with an eye closed, his lips swollen, his face bruised, but the indomitable spirit of him shone from his one bright orb.

"You darned little buzz-saw!" said Gillis tenderly.

Donald slapped his little friend on the back, his eyes shining with admiration.

CHAPTER XIII.

Renwick announced that Robert Rennie's daughter and a party of girl friends were to visit Summit Lake the following week, and carpenters were set to work erecting cottages for their accommodation.

A few days before her arrival Donald was both surprised and pleased to receive a cordial letter from her in which she said that she was looking forward with pleasure to the coming holiday, and that she would deeply appreciate anything he might do for the entertainment of her friends.

As always, her father spared no expense in providing for the comfort and pleasure of his daughter. That week a car containing a motorboat, canoes and six saddle-horses was run in on a side-track at the mill.

Connie learned of the coming event through Donald as she was watching with keen interest the unloading of the spirited animals.

"You will enjoy yourself next week, Connie," he said gaily. "Miss Rennie is coming with friends. We'll have rides, picnics and dancing."

A few minutes later Connie joined Andy, who sat on the steps of the kitchen door enjoying a breath of fresh air.

"Is Miss Rennie rich, Andy?" "An' ole barrel o' dough."

"Is—is she beautiful?" "T've 'eard so, Connie."

A short pause ensued while she searched the pockets of her overalls and produced several neatly folded papers. She extracted one, pressed it smooth, then passed it to Andy.

"Does Miss Rennie dress like that?"

It was a photograph of an actress dressed for the street, taken from one of the magazines that Donald had given her.

"I think so, Connie."

"Oh! She must be wonderful, then!" said Connie earnestly.

She moved closer to Andy, unfolded another page, and spread it out on her knee.

Andy bent his blond head close to the one of gold. "A startled look crossed his features and his brows hunched up and down. It was a full-page advertisement of ladies' lingerie. The highly coloured illustration of a lady, partially dressed, achieved its object of arresting the eye, while the remainder of the space was occupied by articles of apparel similar to those adorning the lady's graceful form."

Andy coughed. "Er—yes, Connie."

Connie raised her eyebrows incredulously. "All at one time?"

"Sure—sure," mumbled Andy.

Connie stared. "Why, there must be nearly a dozen pieces. How is this fastened?" she questioned as she

pointed with a slender brown finger to one of the engravings.

Andy took a quick glance. "Buttons," he replied Andy, gripping the bowl of his pipe and sending out clouds of smoke.

"And this?"

"Buttons," replied Andy, gripping the bowl of his pipe and sending out clouds of smoke.

"Strike me blind, what a 'ell of an 'ole," thought Andy.

"Buttons," he responded desperately without looking at the paper.

(To Be Continued.)

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy parlours, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 185 to 220 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

Stony Plain and District.

IT PAYS TO PAY CASH.

Wm Comisarow paid his City friends a visit on Sunday.

Walther League members held a business meeting last evening in St. Matthew school house No. 1. The president, Mr Val J Kulak, was in the chair.

It is probable that not so many local Scots and near-Scots as usual will be present at the Macdonald tomorrow night to help celebrate Burns' anniversary. One phase which does not meet with popular approval is the raising of the admission fee from two bucks to five.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

Wohlsein, eat apples; get 'em at Hardwick's.

An Investigation Being Made

An investigation is being made into the operations of a motor truck driver who is said to have been handling livestock in this and nearby districts until recently. This is following a complaint that the returns he made to consignors were not satisfactory. One transaction, made Christmas week, shows that the owner of an animal handled was paid by a check which was afterward returned to the cashee with the insignia "n.d.g." or words to that effect.

Place Seed Oat Orders Now.

Unless farmers are prepared to estimate their seed oat requirements for next season and place their orders immediately, a serious situation is likely to develop next spring.

At present seed oats are being bought up in large quantities for shipment out of the province. When seedling time arrives we shall have the spectacle of farmers with empty oat bins buying back their own or their neighbors' oats at greatly enhanced prices. This occurred in some measure last season. The situation is a good deal more intensified now.

The moral is: Order seed oats now. And now doesn't mean tomorrow or in the spring.

Local elevators are prepared to do their part to ensure a supply for seedling, but are not in a position to determine the individual farmer's requirements.

20—Nomination for Councilors in Municipal Districts.	

Carvel News

Auctioneer Zucht conducted a very successful sale yesterday on the Pawlyk farm, a good price being obtained for everything put up. The farm has been rented for the coming season. The Pawlyk family will reside on the place until they have decided on their future plans.

Mr Gilbert Stebbins has returned to his home here, after a fortnight spent in the University hospital, undergoing treatment.

Opening Date of Assembly Postponed.

The opening date of Legislature has been changed from Jan. 24 to Jan. 31. Change was made necessary, owing to recent illness of members of Cabinet and the consequent delay in the preparation of the legislation to come before the House.

Rural Education in Alberta.

Copies of a pamphlet, "Rural Education in Alberta," have been sent by Minister of Education to each rural S.D. and teacher and other rural organisations interested in education. This contains an outline of changes in school system to be introduced in the Legislature. Copies may be had on application to the Dept. of Education.

U.F.A. Concludes Successful Convention.

The annual convention of the U.F.A. and U.F.W.A. of Alberta during the past week was one of the most successful events in the history of the organisations. H Wood, the veteran president of U.F. was unanimously re-elected for his 14th successive term. Mrs R B Gunn has retired from the leadership of U.F.W after five years service in the position, and has been succeeded by Mrs Arthur Warr of Wabesatenaw.

"Clearance Sales"!

The following ingenious account of how a "clearance sale" is conducted is from the December issue of "The Retail Merchant"—

"A hardware merchant found a lot of stoves in stock that had been there a long time. He then tried his mark-down plan. He put one stove in the window, priced \$12, with the sign 'This stove will be reduced 50c in price every day until sold.'

"Bright and early the day the stove reached \$8.50 there was a buyer waiting for it when the store opened. The cost of the stove was eight dollars."

As We Go to Press, We Notice

Wee Hubbel driving by with a load of poplar firewood.
The Corp. motoring out on a fresh-air trip.
Three-o'Clock John heading for the Bank.

Spruce Grove News

The local branch of the Community League is to be congratulated on the acquisition of the new recreation grounds. The transfer was made of twenty lots on each side of Main street, commencing at the Municipal hall, and thence north. This is the plot which has heretofore been used for the ball games and picnic grounds. It is the intention now to have the land cleared off and probably fenced. The deal was put thru by Mr Jac Brox, and the land was acquired from the Town-site Company at a very nominal figure.

Messrs Hill and Sealright, of the Dept. of Neglected Children, were visitors here on Saturday, in connection with a case north of town.

A retired butcher from a nearby town got an eyeful the other day when he gazed on the prize beef hanging in "Scotty" MacKean's butcher shop.

The recent wind storms have drifted up the north and south roads pretty badly with snow, making travelling rather difficult.

Public Notice!

Cottage Lake, situated in sec. 30 Tp. 51 Rg. 1w5, and known as Edmonton Beach, was closed to all fishing for a period of three years, or until Nov. 20, 1923. The Department of Fisheries has considered it advisable to extend this closed period, and has therefore extended this closed period to May 15, 1929.

No fishing of any kind is therefore permissible in this lake until May 16, 1929. Anyone caught fishing in this lake before that date will be prosecuted.

R. T. RODD,
Inspector of Fisheries,
District of Alberta.

Wolf and Coyote Bounties.

Following are the bounties to be paid on wolves killed in the province:

\$20 will be paid for female timber wolves, while male timber wolf pelts will command \$10.

Adult prairie wolves taken between April 30 and Sept. 1 will be paid for at \$2 a pelt.

Each wolf pup taken before July 1 will command \$2.

While prairie wolf and wolf pup pelts upon payment of the bounty become the property of the Provincial Government, timber wolf pelts upon which bounty is paid are to be sold thru the Government's fur market service and the proceeds less the selling commission, will be paid to the person receiving the bounty.
